Elizabeth, NJ 07206

Dear Mr. Ponjican:

#98-02

Certification of the Universal Model # 724A-4040 Fill Adapter

Your company requested California Air Resources Board (CARB) certification of the Universal Model 724A-4040 fill adapter on January 16, 1996. The Universal Model 724A-4040 fill adapter is an aluminum version of the previously certified 4" 724 brass fill adapter. A model 724A-4040 fill adapter was installed at a test site located at 4700 Manzanita Avenue, Carmichael CA on June 29, 1995, and passed the required certification testing.

As required by the certification Procedures for Gasoline Vapor Recovery Systems at Service Stations, the approvals of the three State agencies is a precondition to certification by the Air Resources Board. The appropriate letters of approval have been received and are listed as follows:

- Department of Food and Agriculture,
Division of Measurement Standards
August 30, 1995.
- Department of Occupational Safety and Health
March 15, 1995
- Department of Forestry and Fire Protection
Office of the State Fire Marshal
July 12, 1996

I find that the use of the Universal Model 724A-4040 fill adapter, when installed in accordance with the manufacturer's instructions and the conditions listed above, will not adversely affect the performance of vapor recovery systems on which it is installed. Therefore, the Universal Model 724A-4040 fill adapter is certified for use with Phase I gasoline vapor recovery systems provided that it meets the specifications contained in the Executive Orders.

If you have any questions or wish to discuss this matter further, please call Paul Thalken at (916) 445-0383 or Laura McKinney at (916) 327-1525.

Sincerely,
